## Collateral as a **Service**

**Quantum Coin** collateralization is tested, audited, and freely available for anyone to use. It's easy to build apps that lock and unlock Amp on demand to secure transfers, enable lending, and make value move more quickly.

## Extensible and **open-source**

**Quantum Coin** designed to be as flexible and future-proof as possible. Amp's open-source license makes it possible to create and deploy custom collateral managers for your app to interface with Amp on your own terms.

## Non-Inflationary

When new projects **Quantum Coin**, existing implementations benefit from increased liquidity and decentralization, which in turn reduces volatility and enhances collateral quality as a result of the token's fixed supply.

## Asset-Agnostic

**Quantum Coin** doesn't discriminate based on consensus mechanism or form of asset. Any kind of transfer whether digital or physical can use collateral to secure transactions.

# What is Cryptocurrency?

Cryptocurrency is a digital payment mechanism that does not rely on banks for transaction verification. It's a peer-to-peer payment system that allows anybody, anywhere to send and receive money. Cryptocurrency payments exist solely as digital entries to an online database identifying specific transactions, rather than as tangible money carried around and exchanged in the real world. Transactions involving bitcoin funds are recorded in a public ledger. Digital wallets are where cryptocurrency is kept.

# Crypto Exchange

Cryptocurrency exchanges are platforms that facilitate the trading of cryptocurrencies for other assets, including digital and fiat currencies. In effect, cryptocurrency exchanges act as an intermediary between a buyer and a seller and make money through commissions and transaction fees.

**Step-1**  
**Presale and**  
**Foundation Setting**

Set and publicize the initial valuation of Quantum.  
Develop and deploy the Quantum smart contract.  
Conduct a thorough audit of the Quantum coin.  
Initiate targeted marketing campaigns across digital platforms to attract global investors. Roll out a 10% bonus referral scheme.

**Step-2**  
**Presale**  
**Growth**  
**and**  
**Mainnet**  
**Planning**

Maintain momentum in the presale, paralleled with beginning Mainnet development.  
Start production of Quantum-optimized mining hardware and mobile app development.  
Form strategic alliances with tech providers for cutting-edge mining solutions.  
Perform detailed market research to form a strategy and stay ahead of trends.  
Regularly update the Quantum community on progress for transparency and trust-building

**Step-3**  
**Presale**  
**Momentum**  
**and Mainnet**  
**Refinement**

Keep up the presale drive, securing continuous investments.  
Dedicate efforts to Mainnet development, focusing on extensive testing for reliability.  
Select early adopters for Mainnet beta testing, collecting constructive feedback.  
Set up a responsive technical support team for community assistance.  
Enhance security measures for robust network protection.  
Conduct online workshops and training sessions for miners and users in preparation for Mainnet.

**Step-4**  
**Closing Presale**  
**and Mainnet**  
**Launch**

Conclude the presale, finalizing the investment batch.  
Complete final adjustments to the Mainnet for its official release.  
Prepare for broad-scale mining operations.  
Release mining software, equipment, and user guides for immediate post-launch mining.  
Promote the availability of the Quantum mobile app.  
Continue offering the 10% earnings code for mining hardware purchases.
